DETAILED ACTION

This communication is responsive to amendment filed on October 08, 2004.

Applicant cancels claims 1-39, amends the abstract, the specification and adds new claims 40-60.

Allowable Subject Matter

The following is an Examiner's statement of reasons for the indication of allowable subject matter:

1. Claims 40-60 are allowable.
2. The following is an Examiner's Statement of Reasons for Allowance: Claims 40-60 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches an image processor for converting input image data having a first number of tones into halftone-processed image data having a second number of tones which is lower than the first number of tons and for outputting a dot image corresponding to the halftone-processed image data comprises a halftone processing means for halftone-processing the input image data using a plurality of dither threshold planes wherein each of the dither threshold planes consists of a plurality of the same unit threshold matrixes, an image output means having different output position accuracies between a main scan direction and a sub-scan direction for outputting the dot image which has continuous medium-to-high tone dots in the sub-scan direction; wherein an order of the threshold on the unit threshold matrix is defined based on both a reference threshold

array and a threshold sequence and wherein the medium-to-high tone dots are produces based on the order of the thresholds from medium to high in the unit threshold matrix while the order of the medium to high thresholds is of both an aperiodic array and an anisotropic array.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
